FU ZU BA GRADUATE JOB PLACEMENT ASSISTANCE PROGRAM

Purpose of the Program: In furtherance of its mission, the School finds that it is important that its graduates begin their career as soon as possible after graduation. Therefore the School has established the Fu Zu Ba Graduate Job Placement Assistance Program, the purpose of which is to provide graduates with support and assistance to begin working for pay in the career for which they are now prepared.

Objective of the Program: The goal of the Fu Zu Ba Graduate Job Placement Assistance Program is that 100% of our graduates who wish to do so are working in their chosen field, and earning at least \$2,000 monthly, no later than twelve months after their graduation date.

Services Offered: In order to achieve this objective, the School will make available the following services at no cost to our graduates:

- 1) Letters of Reference: School staff will provide a letter of reference to graduates who have demonstrated competence upon request.
- 2) Interview Skills: As part of the Business and Ethics for Massage Therapists (Unit E) section of the curriculum, the instructor will teach basic interview skills, and will have students role play job interviews with each other with supportive feedback from the instructor.
- 3) Job Postings: Incoming job opportunities will be posted on a bulletin board at the School, and will be emailed to those graduates who provide their email addresses to the Student Services Coordinator and request notification of incoming job offerings.

Evaluation of the Job Placement Program Objective will be conducted by phone calls to graduates within twelve months of their graduation to determine whether each graduate is employed in the field for which s/he was trained, and to determine the income level of each graduate. These data will be compiled on the School's Annual Report, which will be posted on the School's website and made available for inspection by the Commission on Postsecondary Education upon request.

REFLEXOLOGY STUDENTS: Below please find the text of Clark County Ordinance Title 7.07.010, which lays out reasons an applicant may be denied reflexology business licensure by the Clark County Business License Office. Prospective Professional Practice of Reflexology students are advised to study this list, and if any of these apply, to inform the school prior to enrollment in order to determine whether participation in our program has the potential to benefit the prospective student or not:

Section 7.07.010 Declaration of Policy: In conformity with the policy of this chapter, the following persons are declared not to be qualified to hold a license under the provisions of this chapter:

- (a) A person who does not possess, or who does not have a reputation for possessing a good moral character;
- (b) A person who is under the age of the age of twenty-one years;
- (c) A person who has been convicted of a crime involving moral turpitude;
- (d) A person who the board of county commissioners determines is not a suitable person to receive or hold a license, after due consideration for the protection of the public health, safety, morals and general welfare of the inhabitants of the county.

Rules of Conduct

Students are expected to attend all classes with a clear mind (not intoxicated or otherwise impaired), and with the intention to learn. Violence, serious disrespect, and improper sexual advances will not be tolerated.

Suspension and Dismissal: Grounds for suspension include:

- Coming to class intoxicated once; or
- Serious disrespect shown toward a classmate or instructor on one occasion.

Suspension means the student is asked to leave class for the day. The student is welcome to come back to the next meeting of the class. Any student who is suspended must make up the missed class time in order to qualify for graduation from the School.

Grounds for dismissal include:

- Coming to class intoxicated;
- Violent behavior toward any person while at the school;
- Serious disrespect (obscene comments or gestures) toward a classmate, client or instructor;
- Sexual advances toward any classmate, instructor or client.

Attendance Policy: To qualify for graduation the student must attend all classes for the full duration of their course. Missed classes may be made up during the next session of the course at a cost to be determined by

the School if the next session is not full, or by meeting outside of class time with the instructor at a time and hourly price agreeable to the instructor. This is because most licensing agencies require that licensees have attended the full number of instructional hours in order to qualify for licensure or certification as a massage or reflexology therapist.

Excessive Absenteeism: More than ten unexcused (excuse is at the discretion of the Instructor) hours of absence may be grounds for suspension or dismissal from the school. As an alternative, the student may be offered a leave of absence to allow time to clear up whatever is causing her or him to be absent from classes.

Tardiness (arriving to class more than five minutes late) is disruptive to the learning process of all students, and as such is not acceptable. Each student is permitted one tardy. The first tardy each tardy will count as one hour of absence, and must be made up in order for the student to receive her or his graduation certificate.

Leave of Absence: Students are eligible for up to two leaves of absence, defined as a specific period of time to not attend classes, at the discretion of the Director on a case by case basis. Students with a leave of absence will be allowed to resume classes where they left off during the next or a subsequent session as agreed upon with the school's Director, at a cost of \$10 per hour.

Grading and Student Assessment

Grading will be based on a combination of class participation, observation of skills by the class instructor, and scores on examinations. Written and, if appropriate, practice examinations will be administered at the end of each section of the course. The written examinations will be graded on a standard percentage point basis with a maximum of 100 points (i.e. A = 90-100 points; B = 80-89 points; C = 70-79 points; D = 60-69 points; and F = 0-59 points). The practical examinations will be scored by the instructor(s) using a criteria sheet, also on a percentage point basis with 100 as the maximum score.

Progress Reports: A Progress Report will be provided by the Instructor to each student at the end of each Unit in the form of a letter grade (A, B, C, D or F) and written comments (as needed) about the student's performance during the course of each unit.

Standards of Progress:

1. The grading system used for evaluation of student progress shall be the 0-100 point system, in which 90-100 points = A, 80-89 = B, 70-79 = C, 60-69 = D, and below 60 = F. The minimum grade considered satisfactory to pass the course is 70 points (C-).
2. Students with unsatisfactory grades or progress will be offered the options to:
 - contract with the Instructor for private tutoring at a rate to be determined by the Instructor;
 - withdraw from the course and receive a pro-rated refund; or
 - continue with the course of study with the understanding that if the student's performance does not improve s/he may not be able to pass the class and so fail to receive the Certificate of Graduation.
3. Probation: A student shall be placed on Academic Probation if, after the first two sections of a course of study, the student fails to earn an average grade of 70 or higher. A student on Academic Probation will be required to meet with the Student Services Coordinator or Instructor at least weekly to discuss ways this student could bring up his or her grades. These could include additional assignments, tutoring, or any other method deemed viable by the student and Student Services Coordinator. A student on Academic Probation shall be restored to good academic standing if, during the term the student is on Academic Probation, he/she earns an average grade of 70 or higher. However, a student shall remain on Academic Probation if the grade average is below 70.

Graduation Requirements:

1. Completion of the full number of required hours of training – this is because most licensing agencies require that licensees have the full number of instructional hours to qualify for licensure or certification;
2. A minimum 'C' (70%) average if the class is taken on a graded basis, or a 'Pass' recommendation by the Instructor for each segment of the course.

Transcripts: Transcripts will be released when the student 1) has successfully completed all coursework; 2) has attended all required class hours; and 3) has paid the tuition and fees in full. The first transcript mailed by the school is free. Additional transcript mailings may be requested at a cost of \$50 per transcript.

Student Record Retention: The School will maintain student records in a locked file cabinet on the school's premises for each student, whether or not the student completes the educational service, for a period ending five years after the date of the student's graduation, withdrawal, or termination. The student records shall be retrievable by student name and shall contain all of the following applicable information:

- (1) Written records and transcripts of any formal education or training relevant to the student's qualifications for admission to the institution;
- (2) Copies of all documents signed by the student, including contracts, instruments of indebtedness, and documents relating to financial aid;
- (3) Copies of all tests given the student before admission, including ability to benefit tests;
- (4) Records of the dates of enrollment and, if applicable, withdrawal, leaves of absence, and graduation;
- (5) A transcript showing all of the classes and courses or other educational services that were completed or were attempted but not completed and grades or evaluations given to the student;
- (6) A copy of any documents relating to student financial aid that are required to be maintained by law or by a loan guarantee agency;
- (7) A document showing the total amount of money received from or on behalf of the student and the date or dates on which the money was received;
- (8) A document specifying the amount of a refund, including the amount refunded for tuition and the amount for equipment, the method of calculating the refund, the date the refund was made, the check number of the refund, and the name and address of the person or entity to which the refund was sent;
- (9) Copies of any official advisory notices or warnings regarding the student's progress;
- (10) Complaints received from the student, including any correspondence, notes, or telephone logs relating to a complaint.

Fu Zu Ba School will maintain an exemplar of all notices and disclosures provided to students and a record of the time period within which each notice and disclosure was provided. The institution shall maintain records of student attendance on a roster and as part of each student's Educational Record. Except as required by law, Fu Zu Ba will maintain all student records in locked file cabinets as required by the Nevada Administrative Code 394.070 for at least five years at the institution's primary administrative location at 3884 Schiff Drive, Las Vegas, Nevada, 89103. If Fu Zu Ba closes, the institution will turn over all its records to CPE who will become the permanent repository for student transcripts.

Refund Policy: (1-a) If the institution has substantially failed to furnish the training program agreed upon in the Enrollment Agreement, the institution shall refund all the money the student has paid.

(1-b) If a student cancels his or her enrollment within three days of signing the Enrollment Agreement, the School shall refund 100% of the money the student has paid to the school. The process for cancellation is that the student notifies the Director, Registrar, or Student Services Coordinator of her/his intent to cancel either verbally or in writing.

(1-c) If a student cancels his or her enrollment before the start of the training program, the institution shall refund to the student all the money the student has paid, whichever is less, and if the institution is accredited by a regional accrediting agency recognized by the United States Department of Education, the institution may also retain any amount paid as a nonrefundable deposit to secure a position in the program upon acceptance so long as the institution clearly disclosed to the applicant that the deposit was nonrefundable before the deposit was paid.

(1-d) If a student withdraws or is expelled by the institution after the start of the training program and before the completion of more than 60 percent of the program, the institution shall refund to the student a pro rata amount of the tuition agreed upon in the enrollment agreement, minus 10 percent of the tuition agreed upon in the enrollment agreement or \$150, whichever is less.

(1-e) If a student withdraws or is expelled by the institution after completion of more than 60 percent of the training program, the institution is not required to refund the student any money and may charge the student the entire cost of the tuition agreed upon in the enrollment agreement.

2. If a refund is owed, the institution shall pay the refund to the person or entity who paid the tuition within 15 calendar days after the:

- (a) Date of cancellation by the student of his or her enrollment;
- (b) Date of termination by the institution of the enrollment of the student;
- (c) Last day of an authorized leave of absence if a student fails to return after the period of authorized absence; or
- (d) Last day of attendance of the student, whichever is applicable.

3. Books, educational supplies or equipment for individual use are not included in the policy for refund required by the above language, and a separate refund must be paid by the institution to the student if those items were separately paid for but not used by the student. Disputes must be resolved by the Director for refunds required by this policy on a case-by-case basis.

4. For the purposes of refund calculation:

- (a) The period of a student's attendance must be measured from the first day of instruction as set forth in the enrollment agreement through the student's last day of actual attendance, regardless of absences.
- (b) The period of time for a training program is the period set forth in the enrollment agreement.
- (c) Tuition must be calculated using the tuition and fees set forth in the Enrollment Agreement and does not include books, educational supplies or equipment that is listed separately from the tuition and fees.
